Are you interested in the **Hungarian language**? Interested in **Central Europe**? Are you perhaps of **Hungarian heritage**? Do you need to fulfill a College of Liberal Arts and Social Sciences **foreign language requirement**?

**Learn Hungarian, the language of the Magyars!**

In Spring 2016 **Beginning Hungarian II** will be offered for those who already have some Hungarian knowledge and would like to continue with or improve their Hungarian. **Why learn the Hungarian language**? Just a few reasons: Hungary is a country with **more than 1000 years of history**, rich in **natural beauty, traditions and culture**; Hungarians are **friendly people** with **delicious foods and dishes**; **Cleveland** has a large **Hungarian community** and various Hungarian locations; you can learn a **special, unique language** which is said to be very **logical**; by speaking Hungarian you will surely earn others' **attention and recognition**.

If you are at least 60 years of age, you are also eligible to take the course free through the **Project 60 program** at Cleveland State University (<http://www.csuohio.edu/project60/project60>).

**Now is the time to (re)learn the language of your ancestors!**
